Mike Dwyer's New Purchase,  
Stonewall Captures the  
Fourth Race.GRAVESEND TRACK, Sept. 28.—This  
was the fifteenth day of the meeting, and  
although the weather was delightful the at-  
tendance was small. The card, which was  
made up of overnight events, was a poor  
one.

The opening event was a handicap for two-  
year-olds at six furlongs. Of those entered  
seven saved the starter. In the opening  
betting Prince George was the favorite, but  
towards the close and they went to the post  
even chances. The race resulted in a surprise,  
as Chlewick, a 7 to 1 chance, won, with  
Fries, at 40 to 1, finishing second.

The next event was a six-furlong dash for  
maiden, and the nine that faced the starter  
were as poor a lot as could possibly be scored  
together. The talent, however, selected Can-  
vass as being the best of them, and they were  
right this time, as Canvass managed to land  
him a winner after a hard drive up the  
stretch.

There were seven entries for the three-  
year-old handicap and all went to the post.  
This was a fairly good betting race, Strephon  
and Miss Dixie being heavily backed, with  
the former the favorite. Dognet, who was  
on Dagone, a 7 to 1 chance, rushed him to  
the front at the end of the race and was never  
reached. Miss Dixie was second, while the  
favorite had all he could do to get third place.  
Gold Dollar pulled up lame in preliminary  
gallop, but the judges refused to allow him to  
be scratched. Stonewall ran in the interest of  
M. F. Dwyer, he having been sold to him by  
H. Warko on private terms. The price is  
said to be \$15,000.

Another Big Fire in the Singer  
Sewing Machine Works.

Buildings, Locomotives and Freight  
Cars Destroyed.

600 Workmen Directly and 4,000  
Indirectly Affected by the Blaze.

Elizabeth, N. J., Sept. 28.—Another big  
fire broke out at 2 o'clock this morning in the  
Singer Sewing Machine Works at Elizabeth-  
port, and destroyed property worth over  
\$250,000.

The flames were first discovered in the rear  
of the main building, and where the third  
engine-room is located. The fire spread rap-  
idly and swept towards Staten Island Sound,  
being aided by a strong wind from the north-  
west.

The cabinet shop and carpenter shop, large  
brick structures, each 200 by 60 feet, and the  
round house, where the company's loco-  
motives were stored, were soon a roaring  
mass of flame.

The shipping building and packing room, an  
immense structure 400 by 130 feet, in  
which was stored 60,000 machines, was only  
saved by a fortunate change of the wind.

Three locomotives, thirteen freight cars  
and a large amount of valuable machinery  
were destroyed. The gas-fitters' department  
was also burned.

The entire fire department of Elizabeth  
was summoned. The steam lighter Advance  
and several tugs fought the fire from the  
company's wharves. The united efforts of  
these boats saved the dock and shipping de-  
partment from destruction.

The flames leaped across the yard and  
caught the buildings located alongside the  
Central Railroad tracks, but the fire was  
checked there before it made much headway.

The carpenter and cabinet shops were each  
three stories high and furnished employment  
to about 600 men. They will be immediately  
rebuilt.

The fire is supposed to have been caused by  
spontaneous combustion.

It was 6 o'clock this morning before the fire  
was got under control.

The fire will seriously cripple the opera-  
tions of the works, which now employ  
4,000 persons, as the work performed in the  
burned departments is essential to the turn-  
ing out of new machines.

This is the second great fire at the Singer  
works within a year and a half, and it wipes  
out of existence most of that portion spared  
by the first fire, which cost the company  
\$750,000.

Charles Galway, of Engine Company No.  
5, was seriously hurt by being caught under  
part of a falling wall. Several other firemen  
were slightly injured by flying bricks.

William Berkley was severely burned on  
the back of the neck by an electric-light wire.
